

COURSE AND CONTACT INFORMATION:

Course: Chemical Bonding (**Chem 6277-10**)
Semester: Fall semester of academic year 2017-2018
Time: 3:45PM-5:00PM Tuesdays and Thursdays
Location: Room 311, 1957 E Street

INSTRUCTOR:

Name: Prof. Hanning Chen
Campus Address: Room 4510, Science and Engineering Hall
Office Phone: 202-994-4492
E-mail: chenhanning@gwu.edu
Office hours: 4:00PM-5:00PM Wednesdays

COURSE DESCRIPTION:

The goals of this course are to introduce students the basic concepts of quantum mechanics, and to encourage them to apply the modern electronic structure theory to explore a wide range of physical properties of chemically bonded systems.

COURSE PREREQUISITE:

Undergraduate physical chemistry (CHEM 111 and CHEM112) or satisfactory performance on the ACS placement exam in Physical Chemistry given to incoming graduate students.

TEXT:

“*Quantum Chemistry*” 7th Edition by Ira N. Levine. (ISBN: 978-0321803450)

LEARNING OUTCOMES:

After completing this course, students should be able to:

1. Comprehend the fundamental concepts of quantum mechanics and have a clear picture of the wavefunction representation of physical objects.
2. Know how to describe a quantum system's Hamiltonian using Hartree-Fock, configuration interaction, coupled cluster, density functional theory and semi-empirical approaches.
3. Extract useful information about real chemical systems from electronic structure calculations. Such information can include structural, energetic, thermodynamic, kinetic and spectroscopic data.

GRADING:

The course grades will break down as follows:

In-class quiz:	25%
Homework:	25%
Midterm examination:	25%
Final examination:	25%

Final letter grades will be determined by a curve with the average grade around B+.

Beginning 08/31/2017 (Thursday), a quiz will be held in the **first 10 minutes** of a lecture to assess students' understanding of the materials from an immediate past lecture.

No time extension or make-up will be given if you come to class late.

Homework problems will be assigned at the end of each lecture, and should be handed in by its designated deadline to my departmental mailbox.

A homework assignment submitted after deadline will still be graded, although no credit will be received.

A midterm examination will be held on **10/17/2017** (Tuesday) to cover the content from Lecture 1 through Lecture 13.

The final examination is schedule on **12/13/2017** (Wednesday) to cover the content from Lecture 14 through Lecture 26.

No student will be excused from taking an exam without prior permission from Prof. Hanning Chen. If you believe that you have a valid reason for requesting a reschedule of the midterm or/and final examinations, please contact me **no later than 72 hours** before the examination either in person, in writing, by phone or by email.

Class Policies:

Students are expected to do their own quizzes, homework and examinations without plagiarizing or group discussion. Any activity that tends to compromise the academic integrity will be reported **immediately** to the Office of Academic Integrity.

EMERGENCY PREPAREDNESS INFORMATION – SYLLABUS INSERT

Instructor: _____

Course: _____

Building/Room#: _____

READY GW

MAKE A PLAN. BUILD A KIT. STAY INFORMED.

CampusAdvisories.gwu.edu

EMERGENCY NUMBERS

Foggy Bottom (GWPD)..... 202-994-6111
Mount Vernon (GWPD)..... 202-242-6111
VSTC (Loudoun County)..... 911
Other Locations..... 911

NON-EMERGENCY NUMBERS

Foggy Bottom (GWPD)..... 202-994-6110
Mount Vernon (GWPD)..... 202-242-6110
GW Information Line..... 202-994-5050
VSTC Information Line..... 571-553-8333

Fire

- Pull the fire alarm
- Leave the building immediately using the closest emergency exit, closing doors behind you
- Call GWPD (202-994-6111) or 911 when safe to do so
- Assemble in a designated area
- Re-enter the building only when instructed by emergency officials
 - Do not assume an alarm is false
 - USE STAIRS, do not use elevators
 - If unable to exit the building, go to the nearest exit stairwell or safe area of refuge and call GWPD (202-994-6111) or 911 to report your location
 - If trained, use a fire extinguisher if the fire is small and contained and the room is not fill with smoke

Two emergency exits are located: _____

Primary meeting area (near): _____

Secondary meeting area (far): _____

Severe Weather

Thunderstorms are the most common type of severe weather in the Washington, DC metropolitan area. However, winter storms, extreme hot/cold temperatures, flooding, tornadoes and hurricanes can occur. Check **CampusAdvisories.gwu.edu** for up-to-date weather advisories and information.

Shelter-in-place for severe weather events:

- Seek shelter indoors in a low part of the building
- Move to a windowless interior room away from hazardous materials
- Take cover under a sturdy object or against an interior wall
- Monitor **Campus Advisories** and local media
- Wait for the *all clear* before leaving your safe space

Violence/Active Shooter

If an active shooter is in your vicinity, call GWPD (202-994-6111) or 911 when it is safe to do so and provide information, including the location and number of shooter(s), description of shooter(s), weapons used and number of potential victims.

Evacuate: If there is an accessible escape path, attempt to evacuate the premises

- Have an escape route and plan in mind; leave your belongings behind; follow instructions of police officers

Hide Out: If evacuation is not possible, find a place to hide where the active shooter is less likely to find you

- Hide in an area out of the shooter's view; provide protection; lock the doors; block entry to your hiding place; silence your phone; wait for law enforcement

Take Action: As a last resort and only when your life is in imminent danger, attempt to disrupt and/or incapacitate the shooter by:

- Acting as aggressively as possible against him/her; yelling; throwing items and improvising weapons; and commit to your actions

Emergency Communications

CampusAdvisories.gwu.edu is the university's primary website used for communicating emergency preparedness and incident-related information (including class cancellations) to the GW community.

GW Alert is a notification system that sends emergency alerts to email addresses and mobile devices. Students, faculty and staff are requested to maintain current contact information and campus location information by logging into the GWeb Information System (banweb.gwu.edu). In emergency situations, alerts may also appear at the top of university webpages.

Media Outlets, such as 103.5FM or WTOP, may be contact with emergency information, such as weather-related delays and closing.
